INFLATION CAGES

DESCRIPTION

The 3-bar, 4-bar and 5-bar tire inflation cages are used for changing and inflating tires for trucks, buses, military vehicles, etc. These truly heavy-duty inflation cages are manufactured in our Canadian plant using steel that meets the toughest standards in North America. These safety cages, a mandatory precaution for tire inflation, provide good protection and exceed the requirements of OSHA Standard 29 CFR 1910.177 in the U.S. The steel tubing size and powder-coated paint are superior to our competitors' products. Before using the tire inflation cage, please read the instructions carefully.
